Lava Digital Veneering System (DVS) A Revolution in CAD CAM Dentistry

Lava D.V.S. is a revolutionary CAD CAM produced, highly translucent, non monochromatic full contour crown that can be produced in less than half the time of a traditional, hand stacked crowns without esthetic compromise. Lava D.V.S. consists of a milled, full contour feldspathic top and an automatically designed Lava Zirconia coping. In this hands-on program, attendees will learn to fuse, stain and glaze these parts into a beautiful and strong restoration. Materials for the course will be provided.

(Students should bring loops and internal crown holders.)
Cocktails and Hors D'oeuvres will also be provided during the program.

Friday, March 26, 2010 • 5:00 p.m. – 7:00 p.m.
