

FDLA Business Partnership is the Smart Move

For the minimal annual cost of \$750 FDLA offers you a semi-annual list of all dental laboratories in Florida, which will allow you to directly make connections with the laboratory professionals that your company is seeking.

You also receive special recognition in the onsite program for the FDLA Annual Symposium and Expo, which on average has 800 or more technicians and attendees. Additionally, your company will earn one point per year of sponsorship toward preferred exhibit space at the Annual Symposium and Expo.

As a final touch, FDLA will increase your company's name recognition through listings in our quarterly publication *focus* and in the special Business Partner Program section of our Web site, www.fdma.net.

325 John Knox Road, Suite L103 • Tallahassee, FL 32303

FDIA

Business Partner Program

The Florida Dental Laboratory Association

shall promote the value of all aspects of membership by maintaining effective volunteer and operational leadership; by training technicians and laboratory owners in the latest technology and practices; and by providing venues for dialogue and cooperation between dental laboratories and their suppliers.

The Florida Dental Laboratory Association will advance the individual and collective success of the dental technology profession through leadership, innovation and interaction.

In an effort to accomplish these goals, FDLA has established the **Business Partner Program**. This program will provide you with the tools your company needs to better communicate with Florida's dental laboratory professionals.

Your Laboratory Industry Partner

To succeed in today's dental laboratory market

busy companies need to maximize time and minimize expenses. FDIA has put together this unique program in order to provide maximum contact with Florida's dental laboratory community at a minimal cost.

Not only will you be reaching out to Florida's dental laboratories, but you will also be helping to support FDIA and the community which it serves. FDIA currently supports programs that vary from the expansion of dental laboratory technology programs at Florida's community colleges, to patient safety initiatives, continuing education for dental professionals, legislative outreach, and more. Since you are already involved in the laboratory community, it is evident you are committed to its growth and advancement in technology and patient safety.

Business Partner Benefits

Annual Participation Fee: \$750

Your company will benefit by easily making contact with all of the dental laboratories in Florida. Your benefits include:

- Semi-annual list of all dental laboratories in Florida.
- Recognition in the onsite program for the FDIA Annual Symposium and Expo.
- Earn one point per year of sponsorship toward preferred exhibit space at the Annual Symposium and Expo.
- Year-long recognition in our quarterly publication *focus* and in the special Business Partner Program section of our Web site, www.fdia.net.

Don't Miss This Low Cost Opportunity to Show Florida's Dental Laboratory Professionals That you Support FDIA and Their Professional Community.
