

South Florida – 2 Day Workshop
Friday, December 1 & Saturday, December 2, 2017

Embassy Suites by Hilton Fort Lauderdale
1100 S.E. 17th Street Causeway, Fort Lauderdale, FL 33316

Freedom in Movement, Understanding Occlusion: An Advanced Denture Setup Course

Presented by: Marc Wagenseil, DD, CDT

Sponsored by: VITA North America

We are proficient in making dentures for patients. In fact, it is routine to produce several types of removables with the outcome successful, but why do anterior teeth chip, pop-off, sores develop, patients state they can't chew or new dentures crack? Especially more so for implant retained dentures? Explore a fresh perspective on occlusion and denture integration into the body. Themes to be discussed are the costs of adjustments, freedom in centric, deflective contacts, natural chewing cycle, anterior overjet, sensitivity, and more. With this new understanding of biomechanics, minimize deflective contacts and deliver integrated dentures within the body. It is possible to cut your adjustment rate and issues consistently in half! Join Marc to renew your passion for dentures and rise above complacency. It truly is more than slapping teeth together.

Objectives:

- Understand in-depth concepts of the benefits and advantages of lingualized occlusion
- Learn the meaning of “unlock the bite, unlock the problem”
- Review impact of adjustments, deflective contacts, biomechanics of oral mucosa, chewing cycle, bite strength, freedom in centric.
- Learn the “why” before being showed the “how” pertaining to setting up lingualized occlusion
- Be exposed to treatment planning and modalities of complex cases
- Set up 3 full denture cases (standard, cross-bite, retrognathic)
- Understand the concept of “build teeth to the patient, not the other way around”
- Challenge current and accepted denture practices and complacency

Materials Needed:

Participants should bring paper, pen, set up tools, favorite wax, no flame or alcohol/butane torch, handheld setup template (if used) and any other favorite setup items/tools.

Schedule of Events:

Friday, December 1 - 8:00 a.m. – 5:00 p.m.

Saturday, December 2 – 8:00 a.m. – 5:00 p.m.

*(This is a two-day course, so participants **MUST** attend both days to understand content and be given course credit).*
