Fabricating Flexible Partial – The TCS Way

Presented by: Elvis Rosado ■ Sponsored by: TCS, Inc.

In this course, you will learn the fundamental theory behind removable flexible partials, along with every step necessary to fabricate a flexible partial. Participants will work on duplicates of actual cases, cases you probably see in your own lab. You will develop time saving skills, learn tips to get better results and avoid common mistakes. Participants will learn the difference between all TCS injection units and how to inject unilateral, clasps, and do repairs using the JP90 Handheld Injector.

Course Outline:

- Case design and blockout
- Teeth setup and waxing
- Investing and flasking
- Injecting
- Finishing and polishing
- Repairs and rebase
- Inject unilateral JP90 Handheld Injector

Materials Needed:

Participants should bring a lab coat and any favorite tools you wish to use.
